

CLAIMS

What is claimed is:

1. A peanut butter stirrer, comprising;
 - a. a rigid elongated cylindrical shaft, a handle, said handle being attached at an end of said rigid elongated cylindrical shaft, a mixing blade, said mixing blade being attached at a distal end of said rigid elongated cylindrical shaft; and
 - b. said mixing blade having sides, said sides being smoothly connected to a bottom end.
2. The peanut butter stirrer of claim 1, wherein said rigid elongated cylindrical shaft, and said mixing blade are made of metal common in the utensil industry.
3. The peanut butter stirrer of claim 1, wherein said bottom end of said mixing blade is flat.
4. The peanut butter stirrer of claim 1, wherein said bottom end of said mixing blade has a curved shape, said curved shape being defined by the bottom of a peanut butter container
5. The peanut butter stirrer of claim 1, wherein said handle is elliptically shaped.
6. The peanut butter stirrer of claim 1, wherein said handle has a central flat portion, said central flat portion being located at a distal end from said rigid elongated shaft, said handle having a hanging means defined therein.
7. The peanut butter stirrer of claim 6, wherein said hanging means is a hole, said hole being positioned at a distal end of said handle.
